"Hello barbara

Yesterday I read the manual in one go, it is always a pleasure for me to read you, you can't even imagine the amount of awareness and realization I have had reading your manuals, I would read them even if I wasn't interested in dowsing, having learned dowsing with you has been For me it is a privilege, you are so generous sharing what you have learned through work, you make things so easy for us... How wonderful to cross paths with someone who is equal parts wisdom and kindness.

My feeling every time I reach the last page of each manual is always the same, that of having blown my mind and having grown a little more and a thought that always makes me smile.

This woman doesn't rule the world because she doesn't want to.
THANK YOU, THANK YOU, THANK YOU A hug M.R Salamanca
